

SOCIALISATION.

Life long process through which we acquire our social x-tistics.
People acquire x-tistics or behaviours that are considered appropriate in society.

Aims of socialisation.

- Help members of the society to develop basic disciplines
- Create roles and ambitions. (what must be done to attain status in society)
- Teaches skills
- Helps to define roles. (Helps us to understand right & duties in society)

Socialisation agents.

Help in transforming society, shaping members of the society.

1. Family.

Provides economic support, sense of belonging, love, counselling

2. Peer group.

People in the same age group

3. Religion.

people in the same age group.

3. Religion.

Teacher brotherhood & sisterhood

4. School; teacher time management.

5. Workplace.

6. Mass media (Print / Electronic).

Provides us a framework to shape our behaviours and actions

AGENTS

CHALLENGES OF SOCIALISATION IN MODERN SOCIETY.

- No adequate time for family. since all members are of working class.
- Some fathers are drunkards.
- Some schools advocate only for academic principles at the expense of other social aspects.
- Challenges of mass media.
 - Can become addictive; Internet.
 - Moral decay.
